IDEAL**FISH TAPE REELS AND PULLERS**

No more unprotected tape
—no more kinking—no
more springing all
over the job.

Standard Size

Junior Size

The reel acting as a handle,
gives a **SURE GRIP**
on the tape.

3 Tools in One:-**A REEL — A PULLER — A TAPE****For Building Construction For Industrial Work**

CONVENIENT :: An Easy and Positive Grip :: INEXPENSIVE
No Shorts . . . Save Costly Tape Breakage . . . No Grounds

Saves 50% of the time required for fishing in the old way as the tape is pulled through the conduit and reeled in one operation. Provides a **sure grip**—no slipping.

The reel automatically locks the tape in place to keep

it from unwinding. By keeping the tape reeled up, it is prevented from spreading all over the job, avoiding expensive breakage and the possibility of the tape contacting live parts.

NEW JUNIOR SIZE NOW AVAILABLE

Due to popular demand, a new small size model, only 8½" in outside diameter, is now available. Fits most tool kits. Furnished only with 50' of ½" x .060" (1/16") Fish Tape. The standard reels are available with longer tapes than the 100' regularly supplied, if desired.

Catalog No.	Tape Length	Tape Size	Shipping Weight	Each	Pkg. of 10
No. 0 Junior	50'	1/8" x .060" (1/16")	3 lbs.	\$2.50	\$2.25
